Micro • Light

Micro-Light 100,000+ Power Light Hours

- Squeeze ON/OFF
- Continuous ON/OFF
- Holds two 3-volt lithium batteries
- Replaceable, bright white 100,000+ hour LED bulb

The Bright Light Key Ring Companion

The perfect accessory for all other SWISS+TECH® keyring products

How To Remove The Cover:
1. Place the Micro-Light on a solid, flat surface.
2. Using a #1 Phillips driver, turn the four screws on the cover counterclockwise to remove.
3. Place the loose screws in a safe place.
4. Gently pull the cover up to expose the batteries and LED bulb.

How To Replace The Batteries and LED Bulb:

1. Gently pull the batteries up and out of the Micro-Light base. The LED bulb will also come out.
2. Remove the two batteries.
3. Replace with new CR2016 batteries or equivlent 3-volt batteries. Stack the new batteries on top of each other positive (+) side up.
4. Place straight bulb lead underneath lower battery. Place angled lead on top of upper battery.
5. Put new batteries and bulb back into case.
6. Replace cover and align screw holes.
7. Using a #1 Phillips driver, turn the four screws clockwise. Gently tighten.
